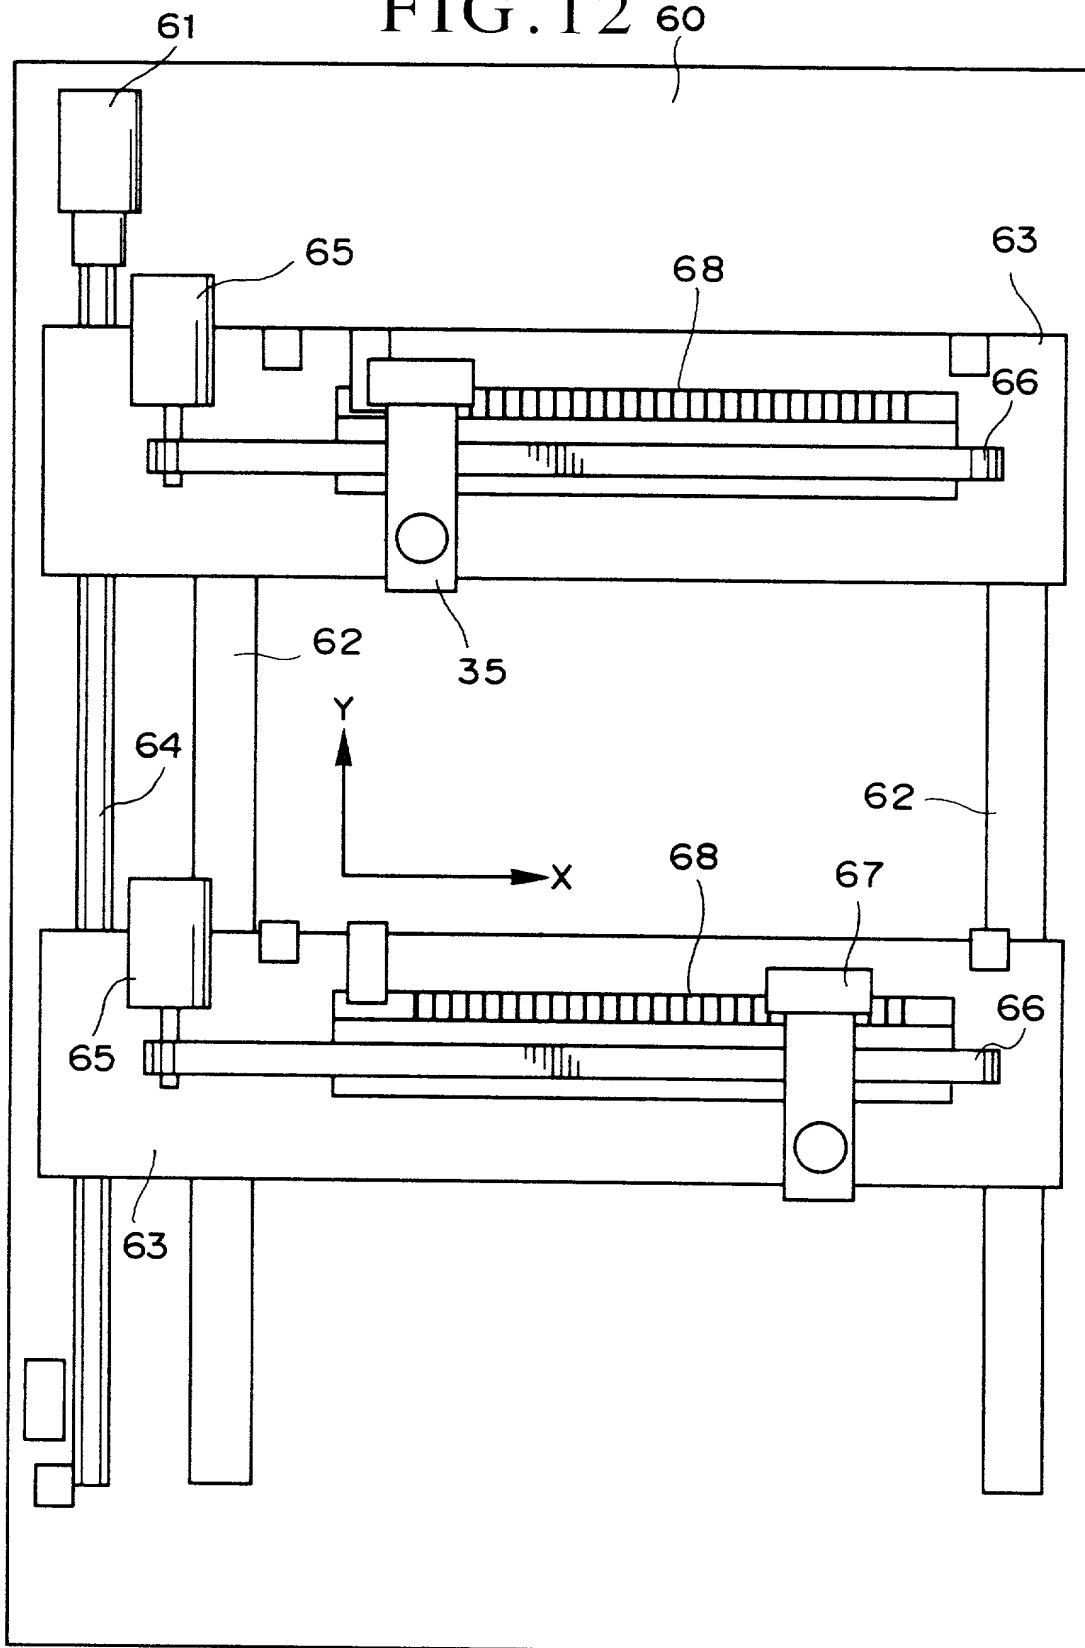

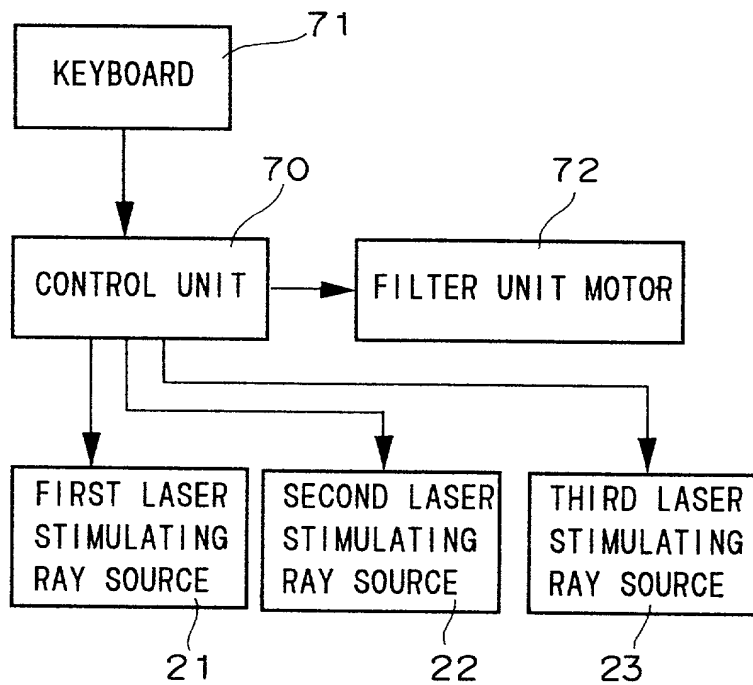

FIG. 13

A schematic diagram of a computer system. On the left, there are two rectangular storage units, labeled 81 (top) and 82 (bottom). On the right, there is a computer system labeled 83, which includes a monitor labeled 84 and a keyboard labeled 85. Two lines with arrows indicate data flow: one line connects the top of unit 81 to the monitor 84, and another line connects the top of unit 82 to the computer base.
